GS Test Certificate 7100004 (Replaces 3100004)

Product Code	Size	Mesh Size	Color
19040-100	5m x 10m	100mm	Green

Complete Package:

As a standard solution for fall arrest nets that also need to protect people from falling objects, complete packages are available in standard sizes, in which the fall arrest net is already backed with an impermeable tarpaulin or an air-permeable fabric.

Fall Arrest Net with Tarpaulin

Knotless safety net conforming to EN1263-1 in 5mm ht green polypropylene rope.

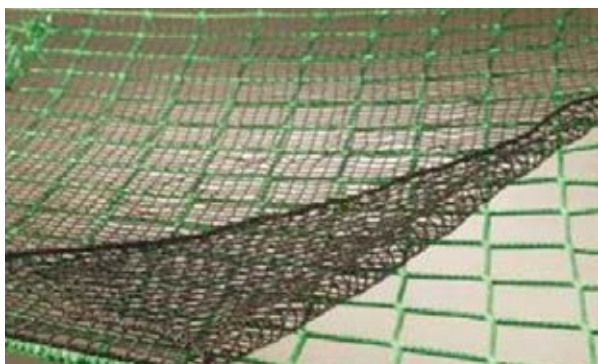

Mesh Size 100mm, edged with 30kN Rope
Ready equipped with overlaid PE Tarpaulin panel, 200gsm edged with pp cord and eyelets at every 1m, already attached to safety net with hog rings or cable ties at approx., 1m interval.

Fall Arrest Net with Air-permeable woven panel (Dust Protection net)

Knotless safety net conforming to EN1263-1 in 5mm ht green polypropylene rope.

Mesh Size 100mm, edged with 30kN Rope
Ready equipped with overlaid HDPE woven panel (Shade Net) approx. 150 gsm, edged with eyelets at every 1m, already attached to safety net with hog rings or cable ties at approx., 1m interval.

Overlay Nets

Instead of panels, close-meshed nets can also be used.
